FINANCIAL AND COMMERCIAL.

WEDNESDAY, April 28-6 P. M. The stock market was again excited to-day for the shares which have been the prominent features dur-ing the past few weeks and for one which is comparatively fresh in the speculative fever. At the first morning board 10,000 shares of Michigan Southrere sold by a well known stock house, and the lealings of the day in this stock were hardly less an thirty thousand shares. The price under the first sales declined from 101 to 99%, but reacted later in the day to 102%, amid considerable exceement. It is said that the Michigan Southern Company, by sid resolution, were empowered to convert and \$2,000,000 of their convertible bonds when esterday, and by some it is thought that the first sales were made as a "short" speculation, but later he impression gained a foothold that the stock house referred to were merely the agents of the comnuch as the total amount of liabilities of the corpo-ation is not changed by the conversion of the bonds, carly understood. Inseed, as the bonds have orne a fixed annual rate of interest and were a first ien upon the road their conversion leaves the of two millions subject to receive such interest as the earnings will allow. Hence the addition to the capital stock is apparent only, which again accounts for the upward turn in rice of stock. New York Central was also exited and irregular, seiling in the early forenoon as nigh as 176%, and thence almost immediately drop-ping to 178%. Hudson River went up to 156 and a to 148, but reacted with Central-all three ecoming heavy under the pressure of sales suped to be based on news of unfavorable legislation Albany. . Erie was pante-stricken at the National ard, and dropped to \$214, but recovered late in irmer and higher, the common touching 86% and preferred 98%. The other rankways were har or heavy, while the business of the narket after the morning regular board The express stocks were variable, Wells-Fargo touching 37 and United States declining ex-dividend. Facific Mail was "off" comparatively neglected, while Mariposa was weak and lower. Western Union yielded to

A continuance of the influences which have been eady commented upon preserved the strength of the foreign exchanges. In the afternoon the relaxation in the rates for cash gold caused a further advance, and the prime bankers put up their quotation to 109% for sixty days sterling. The following was the range of quotations at the close:-Sterling sixty days, commercial, 108% a 108%; good to prime bankers', 108% a 109%; short sight, 109% a 9%; Paris, sixty days, 5.22% a 5.17%; short sight, 5.17½ a 5.15; Antwerp, 5.22½ a 5.17½; Switzerland, 6.22½ a 5.17½; Hamburg, 35½ a 35½; Amsterdam, 36 a 40%; Frankfort, 46% a 40%; Bremen, 77% a 8)4: Prussian thalers, 70)4 a 71)4.
Governments were firmer and an eighth to a quar-

er per cent higher. The market seems to disregard foreign quotations, which to-day declined to 80% at London, rallying subsequently to 80%. The for eign bankers are buying in spite of the fact, and are probably basing their calculations upon the advance 934 a 934 for consols, which indicates a very easy money market in London, the signal for a re newal of speculation there in our securities. The the afternoon a stock house supposed to be carryprice of the latter temporarily down to 115%, but recovered again, and prices closed as follows at five o'clock this evening:-United States sixes, 1881, registered, 118 a 118); do., coupon. 118% a 118%; do., five-twenties, registered, 112% a 112%; do. do., coupon, 1862, 121% a 121%; do. do., coupon, 1864, 117%; a 117%; do. do., coupon, 1865, 118% a 119%; do. do., coupon, new, 1865, 116 a 116%; do. do., coupon, 1867, 116 a 116%; do. do., coupon, 1868, 116 a 116%; do., ten-for-ties, registered, 107 a 107%; do. do., coupon, 107% a 107%; currency bonds, 105% a 105%.

The money market was without change. The ra on call was six to seven per cent, and it was difficult to determine at which figure the majority of loans were made. Commercial paper was quoted at eight to ten per cent for the best double names.

The rates of mones in the open market are working lower and capital is more freely offered. First class cummercial names now go readily at 7½ to 8 per cerk, and we hear of transactions in choice selected names at 7 per cent, but this is exceptional; there is little of this high grade to be had, and the makers will not pay over that rate. Country banks are generally better off than our city banks, and are taking good bankable names at 7½ and 8. Some of the city banks make a very poor show in answer to the last call of the Comptroller in their reserves, and will require to be put on the retired list, as far as discounts are concerned, for a week of two to bring up. The weekly statement of the banks, as returned to the Clearing House April 26, looks more favorable. There is a further decrease in loans, which, under the circumstances, was expected. Legal tenders and deposits show a handsome increase. The statement is as follows:—

The Chicago Tribune of Monday says:—
During the past week there has been a gradual progression toward greater ease in the money market, and all first class borrowers were accommodated by the banks during the latter part of the week without difficulty. The demand for loans is only moderate, and the increased ease is particularly noticeable at the banks. The wholesale merchants are cellecting with moderate success in the country now, and the tendency of reposits is to increase, so that the present prospects are that there will be an abundant supply of money during the first half of May. will be an abone first half of May.

THE COURTS.

JNITED STATES DISTRICT COURT-IN ADMIRALT . The Circussian Case-Action to Becover the Amount of a Bottomry Bond. Before Judge Benedict.

Daniel Steinman and Another vs. The Steamship Circassian .- Libellants were co-partners, under the firm name of Steinman & Co., doing business at Antwerp, Belgium. In the month of August, 1866, the steamship Circassian was lying at the port of Antwerp, bound for the port of New York. While lying there, as ciatued by the Biellants, the master, Thomas Ellis, incurred certain liabilities on account of repairs of which the vessel stood in need. On the 171n of August the master, to meet these liabilities, borrowed of the libellants \$2,300 and secured the same by a bottomry bond and hypothecation, which was acknowledged before the United States Consul at Antwerp. By this bond he bound himself and the steamship to the payment of the debt within three days after the arrival of the vessel in New York, together with £236, making in all £2,530. The steamship partived on the 18th of September, and within three days thereafter the bond was presented to Ellis, the master, and payment demanded. It was refused and has not yet been paid. The action was brought to recover the amount of these advances which, in our currency, amounts to \$17,653 75. The answer of the respondents admits the execution of the bond, but denied that it was properly set forth in the libel. In explanation of the signing of the bond by the master. Ellis, it was alleged by the respondents that the brig Flying Eagle, of which one William Salem of Staten Island, was the sole owner, was despatched from this port to Rotterdam, in 1868, consigned to the firm of Rays & Keller, with instructions to the consignees to sell the brig and apply the proceeds to the payment of a certain draft, for the sum of £1,500, drawn by Salem on them against the brig the draft which salem not always a Keller, but on her arrival at Rotterdam they neglected to sell the vessel and apply the proceeds in payment of the draft; but they drew instead a draft upon Salem for the amount of the draft which salem had drawn upon them, and this draft which salem had drawn upon them, and this draft which salem to recover the amount of the money they had advanced on Salem's Graft. At this time Sa firm name of Steinman & Co., doing business at Antwerp, Belgium. In the month of August, to respondent in the sum of \$90,000, he gave a mortmage on the Circussian to secare this debt. About the
18th of July, 1898, Salean soile the Circassian to the
Continental Mail Steamship Company, a New York
corporation, subject to the lieu of the mortgage to
respondent. This company desilatched the Circassian to Antwerp on the 18th of July, 1806, consigned

reached on the 18th of July, 1806, consigned
to the intellants in this action, which place the vessel
reached on the 18th of August, where she was taken
in charge of by libelants. Not long after her arrival
at Antwerp the respondents, as set forth in the
answer in collection with Rurs & Keller, at
tached her as the property of Salem in the
action pending against him in Antwerp. It was
also claimed by the respondents that Steinman & Co.
were informed of the transfer of the ship from Salem
to the steamship company, and yet the libertants, in
collision with Huys & Keller, procured the execution
of the instrument of hypothecation in favor of
themselves, and upon the execution of the bond
libellants gaid into the court in which the action
agains' Salem was brought a large portion thereof,
to abide the result of the trial. It was also claimed
that the bond was given believe any proper effort had
been made to procure the money needful to release
the stup from the attachment and that no effort was
made to communicate with the owners. It was
claimed further by the respondent that the money
privanced upon the bond was not necessary to pay the
debts incurred by the Circassian for her use and
benoth, and was for the soic and exclusive benefit of
Euros & Keller, and was in payment of their claim
against william Salem, it was also claimed towards fitting out the vessel, except Libe, for which sum there
was more than enough money belonging to respondent, was necessary to enable the circassian to proseoute her voyace. Evidence bearing upon these
points was introduced on both sales. The matter
was agreed, and
